Entrepreneurship Development (ED) Cell

VISION: To establish a vibrant Entrepreneurship Development Cell that nurtures a culture of innovation and empowers pharmacy students to translate ideas into enterprises. Through the EDC, students will gain the skills, guidance, and practical experience to develop market-oriented solutions that improve healthcare outcomes.

MISSION: To empower pharmacy students to become healthcare entrepreneurs who develop solutions that improve access, affordability, and outcomes.

Global Research Institute of Pharmacy has created an entrepreneurship development (ED) cell to develop entrepreneurial traits among students. We envision an ecosystem that helps students undertake the entrepreneurial journey from ideation to launch and beyond. One that connects them to mentors, collaborators, networks, funding sources and other enablers. An ecosystem that celebrates risk-taking, iteration and views setbacks as learning opportunities.

Functions/facilities

Through ED cell, we try to realize our vision by developing the entrepreneurial environment by providing easy and effective interaction of the student body, experienced professionals, SUCCESSFUL ENTREPRENEURS, investors, venture capitalists and corporate. This cell conducts various events, workshops/interactive games and speaker sessions for inspiring and assisting YOUNG ENTREPRENEURS in their journey in the world of business. ED cell assist those by providing support in terms of resources, networking, guidance, and motivation. We at ED Cell are working to induce an entrepreneurial mind-set in the students and support the innovative streak in them.

The main activities of the cell are:

- To motivate students to undergo ENTREPRENEURSHIP DEVELOPMENT Program (EDP), skill development training and enhance self-employment opportunities.
- To reach Science & Technology to the participants and motivate them to take up entrepreneurial ventures.
- To conduct skill development training programmes leading to self/wage employment.
- To organize seminars/ guest lectures / workshops/ industrial visits.
- To transfer the technical know-how and assist the students in setting up entrepreneurial enterprises.
- To provide testing, calibration, quality assurance, design, tool room, pilot plant and other facilities for Entrepreneurs besides expertise in Intellectual Property rights, Patents search, etc.
- Program on Financial assistance (Loans and schemes of Government) and Sources of institutional assistance to entrepreneurs.
- Develop case studies of successful student and alumni-launched startups to highlight entrepreneurial role models.
- Host a business plan competition to encourage students to develop their business ideas and potentially launch companies. Offer prizes and recognition.
- Create an entrepreneurship mentorship program to match students with local business owners, investors, and experienced entrepreneurs to provide ongoing advising.
- Organize a showcase/demo day for students to present their entrepreneurial ideas and startup progress to faculty, mentors, investors, and the community.
