## Scholarly Research Committee (SRC)

**VISION:** The Scholarly Research Committee envisions being a driving force in promoting academic excellence and pioneering research at the institution. The committee strives to cultivate a vibrant research culture that fosters innovation, pushes disciplinary boundaries, and generates meaningful impact.

**MISSION:** The Scholarly Research Committee is dedicated to advancing research activities and scholarly inquiry at the institution. The committee's mission is threefold:

**Supporting Faculty Research:** The committee provides resources, guidance, and professional development opportunities to empower faculty members and students in pursuing impactful research agendas and projects. This includes things like internal research grants, statistical support, writing workshops, and connections to external collaborators.

**Enhancing Research Infrastructure:** The committee works to build up the institutional infrastructure to facilitate cutting-edge research. This can involve things like improving laboratory facilities, expanding digital research platforms, developing policies/procedures for ethical research conduct, and more.

**Promoting Student Research Opportunities:** The committee aims to provide avenues for students to engage in scholarly research, such as coordinating student research assistantships, creating undergraduate research programs, hosting student research conferences, and recognizing outstanding student work.

In carrying out this mission, the Scholarly Research Committee fosters a culture of intellectual curiosity, rigorous inquiry, and knowledge creation. The committee strives to make the institution a hub of innovative research and a leader in producing scholarship that enriches academic disciplines.
